

Open MSc/PhD position AIMLab.

Artificial Intelligence in Medicine Laboratory | Assist. Prof. Joachim Behar

Signal Processing and Machine Learning for the Extraction of Clinical Information from the Non-Invasive Fetal Electrocardiogram

Research Team Member in Assist. Prof. Joachim Behar's lab, Technion-IIT

For a new research collaboration in partnership with the Rambam and Assaf Harofeh hospitals in intelligent fetal monitoring, we are looking for a PhD or MSc level team member to join our research group at the Technion Faculty of Biomedical Engineering.

Necessary Qualification:

- Computing skills: coding skills (Python, MATLAB), digital signal processing and machine learning.
- Creative and able to work efficiently in a team environment and with medical partners.
- Fluent professional English, including report generation and editing.

For details please send your CV, grade sheet and references to Assist. Prof. Joachim Behar. e-mail: jbehar@technion.ac.il
