JOB DESCRIPTION

OBVISLIM LTD - an amazing bio-tech Startup that solves one of the major problems of the world - **Diabetes**. We are hiring an R&D senior engineer for the development of innovative technology in the field of polymers and nutrients absorption.

If you are a star-toucher your place is with us.

RESPONSIBILITIES

- To be a key player in Obvislim RD technology of the company's products and pipeline
- To manage subcontractors on various tasks with short deadlines
- To bring new ideas and incorporate them in the core technology

REQUIREMENTS

- Must - Ph.D. or MSc with more than 5 years industrial experience in Biotechnology and food engineering, Biomedical engineering, chemistry, or a related scientific discipline
- Must - at least 5 years experience in formulations development
- Must - experience in wet lab work and "hands on"
- Preferably - experience in ingested formulations
- Preferably - experience and knowledge on biomedical materials and polymers including their characterization and processing
- Preferably - knowledge in GI tract anatomy
- Preferably - deep knowledge in polymeric materials
- Preferably - knowledge in coatings and adhesives materials
