

Bioelectric and Biomechanical Interfaces Lab

We are looking for talented, curious, and creative students to join our lab as full-time MSc and PhD students

דרושים סטודנטים לתואר שני ולדוקטורט בפקולטה להנדסה ביו-רפואית למעבדה של חמי רוטנברג (ממשקים ביו-חשמליים וביו-מכניים)

If you are fascinated by the interface between biology and engineering and want to develop new methodologies for treating patients or answer basic biological questions, your place is with us. We are developing new materials and methodologies to interrogate and stimulate cells, tissue, and organs electrically and mechanically.

We are looking for outstanding and dedicated doctoral and master students with strong interdisciplinary skills. Candidates holding a degree in relevant fields (engineering, life science, chemistry, or material science) are encouraged to send their CV to- hemir@technion.ac.il

For more information check out our website- biointerfaces-lab.net.technion.ac.il
