

Position: Senior System Engineer

Eitan Medical is a fast-growing global medical device company, developing and manufacturing innovative drug delivery and infusion solutions across the continuum of care- from the hospital to the home. We are looking for an excellent **System Engineer** to join our team.

Job Description:

- Demonstrating leadership and advanced technical knowledge to oversight teams of R&D engineers (Mechanical, HW and SW) in development of the company line of On Body Injectors (OBI) from concept to release.
- Translating customer User Needs (UN) into actionable user and system technical requirements (MeRS, HRS, SRS).
- Lead technical decision-making in the project while collaborating with cross-functional peers within the R&D.
- Support and verify system integration, system testing, and validation and verification covers design inputs and outputs correctly.
- Maintain strong communication across departments and divisions to ensure effective development process, requirements gathering, and operational planning in the development.
- Plan and oversee tasks breakdown and execution within the R&D teams and designated projects in desired quality and on time.
- Prepare (write/review) all system engineering related documentation for FDA approval.
- Work closely with Product management and PMO.
- Take part in technical meetings with international partners.

Job Requirements:

- **Education:** Mechanical/Biomedical/Electrical Engineering
- **Job skills:**
 - 3-5 years of work experience as a Technical TL or System Eng. in **medical devices**
 - 3-5 years of hands-on technical/development experience
 - Problem-solving and troubleshooting skills
 - Demonstrated technical leadership and ownership
 - Successful track record in leading cross-functional technical challenges
 - Experience in a global company - advantage
- **Computer skills:**
 - Full control of all MS-Office applications
 - Background in programming – advantage
- **Language skills:** Fluent English – written and spoken
 - **Personality:** Self-driven, Can-Do attitude and great team player
