

Come and Join Us at Mana!

Send your CV to: jobs@mana.bio with your name and the words "data acquisition position" in the subject line.

Data Acquisition Associate

We are looking for a talented graduate student to join our team at Mana Bio, a start-up disrupting the lipid nanoparticle drug delivery space, as a data acquisition associate.

About the role:

- ❑ Collect complex physical, chemical and biological data from scientific literature and published resources.
- ❑ Design data collection processes.
- ❑ Contribute to the development of a computational formulation prediction model.
- ❑ Possibility to participate in the synthesis and formulation processes
- ❑ A part time student position.

Requirements:

- ❑ Graduate student for biology / chemistry / medicine / biotechnology / biochemical / biomedical engineering..
- ❑ Knowledge in RNA biology and/or drug delivery.
- ❑ Excellent communication skills.
- ❑ Excellent English reading and writing.
