

Development – Student Position

PixCell Medical

Job Description:

PixCell Medical is offering a part-time student position for our development team.

PixCell Medical develops advanced medical analyzers to get rapid blood test diagnostics and information for critical decisions.

Job Description:

This position includes planning, executing, and analysis of trials conducted on the company's device assembly.

Requirements:

- At least 2 years left to complete studies.
- Open-minded, creative, and analytical.
- Ability for delicate work with mechanical and electrical machinery.
- Basic knowledge of mechanics and electronics.

Position scope: 15-25 weekly hours

Location: Yokneam Ilit
